

## Legislative Update

What has changed since the last meeting?

Helge Homann; legislative updates  
15. Mai 2013

## National Regulations

### Accident Prevention Regulation

### „Aviation“ (BGV C 10) is abrogated

This Accident Prevention Regulation applied to aircrafts, ground support equipment and aviation facilities.

It was legally obligated from 1987 until end of march 2013.

Right now, one paragraph is anyone missing:

### § 88 Testing by Specialists

The employer must ensure that ground support equipment and aviation facilities are tested by a specialist as to their operational safety, before their initial operation/ commissioning and as required –at least, however, annually.

## **in the future it will be replaced by industry regulation**

The DGUV is the leading office for new autonomous legislative

They will create new industry regulation for this branch, maybe in three parts..

- maintenance
- groundsupport
- flight operations

**-Responsible for this work: BG Verkehr – in person: ME ....**
