

Legislative Update

what has changed since the last meeting?

Helge Homann; legislative updates
21.11.2013

National Regulations

Accident Prevention Regulation

„Aviation“ (BGV C 10) has been abrogated

This Accident Prevention Regulation applied to aircrafts, ground support equipment and aviation facilities.

It was legally in force from 1987 to the 1st of April 2013.

In the future it will be replaced by 4 trade-specific regulations

The DGUV is the organization responsible for new autonomous legislation

They will create new industry regulations for this trade, in four areas:

- aviation: maintenance and repair
- aviation: dispatching of commercial aircraft
- aviation: flight operations
- aviation: safety and health at work operations with helicopters

DGUV = German social accident insurance (roofing bond)

Timetable for these trade-specific regulations

A group of experts from social accident insurance organizations as well as from operating companies (airports for example), will fill the content with requirements or give their proposals.

The job has to be done in nearly **two years!**

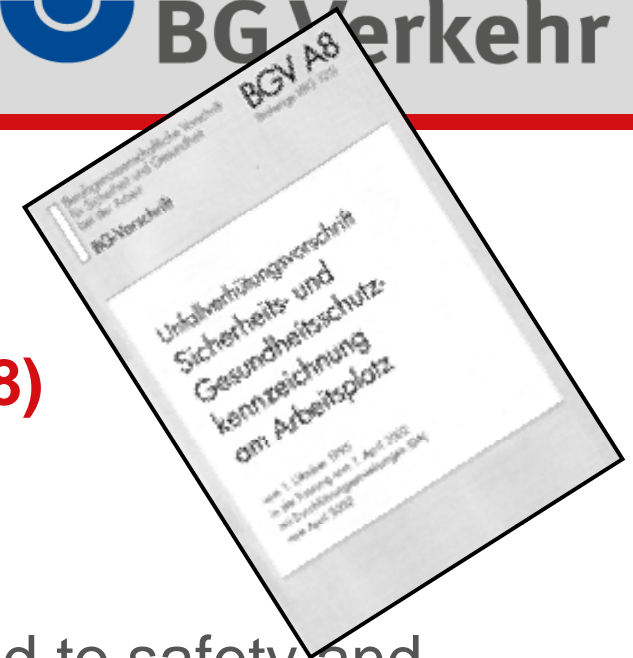

one example for the contents in the specific regulation: *aviation: maintenance and repair*

- Health and safety issues for:
 - accompanying operational maintenance of commercial aircraft
 - recurring maintenance of commercial aircraft
 - coating of aircraft
 - assessment of damage and disturbance to aircraft
 - conversion of aircraft for cargo and other specific civil and military applications
 - aircraft cleaning
 - working on heights in docks and repairshops
 - safety equipment and PPE
 - safe industrial facilities
 -

National Regulations

Accident Prevention Regulation

„Safety and health signs at work “ (BGV A 8) has been abrogated

This accident prevention regulation was applied to safety and health signs at work e.g.:

- prohibition signs
- safety signs
- order signs
- warning signs
-

Accident Prevention Regulation
„Safety and health signs at work “ (BGR A 8) has been
replaced by:

Technical rules for workplaces (Technische Regel für
Arbeitsstätten) **ASR 1.3 “safety and health signs”**

These regulations are laid down by the German Government!

new “*Labour Protection Act* - Arbeitsschutzgesetz“

§ 5 Assessment of working conditions

(3) a hazard may arise in particular by:

- 1.the design and establishment of the workplace and the work station,
- 2.physical, chemical and biological agents,
- 3.the design, selection and use of work equipment, in particular agents, machines, equipment and systems and how to use them,
- 4.the design of working and production methods, work processes and work time and their interaction,
5. insufficient qualification and training of employees.

also new in the *Labour Protection Act*:

A new section five:

§ 20 a Joint German OSH Strategy

§ 20 b National Safety Conference

Regulation on occupational health care (ArbMedVV)

this regulation was amended on the 23rd October 2013!
